ARCH-BISHOP RYAN HAS BEEN CALLED

Roman Catholic Prelate May be Able to Settle Coal Miners Strike.

EFFORT TO ARBITRATE

Operators Consent to Meet the Priest and State Their Side of the Case.

STRIKERS ARE MAKING GAINS

Hazleton, Pa., Sept. 21—[Special Telegram]—President Mitchell, mysteriously missing since yesterday and reported very ill, arrived here this morning, pale and worn, but in exceptionally good spirits. On the same train was Henry George, Jr., and Rev. Father Phillips.

These three men it is believed, had a conference with Arch-Bishop Ryan at Philadelphia, last night. Bearing on this is the announcement that Robert Oliphant, president of the Delaware & Hudson and President Truesdale of the Lackawanna have agreed to meet Ryan at a place and time to be agreed upon today and state their case. The magnates had declined to state their case to anybody save Ryan.

No attempt was made this morning to start the Coleranie breaker. This

shut down will have a strong moral effect in favor of the strikers.

Strikers Making Gains

Wilkesbarre, Pa., Sept. 21—[Special Telegram]—The west end breaker at Mocanaqua is still working this morning but the srrikers have made another gain and now have two hundred out. They expect to have the colliery idle Saturday. Attempt to resume work at the washeries in this city and Luzerne again failed this morning. Two factories shut down for lack of fuel. Many families have appealed to the humane society for aid, and are being supplied with free wood and coal. The companies are guarding the culm banks.

Rioting and Disorder

Mahoney City, Pa., Sept. 21—[Special Telegram]—Mob violence has transformed the Shenadoah district into a scene of wild disorder. Several hundred foreigners in squads of thirty or more are scattered on the outskirts of the town this morning. They intercepted and beat every man caught going to work.

Chief Burgess Brown attempted to disperse one crowd, but was badly beaten.

A squad of strikers marched to Kepley Run colliery, drove the breaker boys out, beat Foreman Smith and threw him into the creek. A Lakeside trolley car was stopped by the miners and stoned. Officers hurried to the scene.

Not one colliery is working around Shenandoah. The Mahoney City district is quiet and the collieries are working as usual.

All Out at Scranton.

Scranton, Pa., Sept, 21—[Special Telegram]—Of ninety-seven collieries in this district only three small private concerns are being worked, and these the union practically disregard because of the small number of men employed. Eight washeries continue work, but all are crippled for help.

No attempt has been made to use violence in any case where the men have not come out.

Both operators and men stand firm, and calmly watch the fight. In the lower districts tomorrow a monster miners' parade takes place, reviewed by President Mitchell.

The railroad switchmen will hold a conference here tonight to discuss the part they are to take in the strike.

Grand Master Morrissey of the Brotherhood of Trainmen, has been sent for, and is expected tomorrow.

HE WORE WOMEN'S ATTIRE

Mrs. Moody's Charges Against Husband Not Sustained In Court.

Cleveland, Ohio, Sept. 21—A passion for wearing women's lingerie was the form of insanity with which Lucius Moody was charged in a complaint filed today by Mrs. Margaret Moody, his wife.

The Moodys live at 698 Lake street. The husband is a finely built man, and well dressed.

"He has a whole trunk full of women's underwear," said Mrs. Moody to Judge White. "He buys it at the stores and wears it as women do."

Moody, she said, wears daintily ribboned and embroidered chemises, long knee stockings of stripes, dots, circles and other fancy designs, and fastens them up with bright colored supporters of the style worn by women.

Mr. Moody denied the charges made by his wife, and Judge White discharged him.

Steyn May Join Kruger.

Windburg, Orange Colony, Sept 21—[Special Cablegram]—President Steyn of the Free State has appointed Judge Hertzog to be acting president. This is supposed to indicate that Steyn will join Kruger and accompany him to Europe.

LA FOLLETTE TALKS IN SHIRT SLEEVES

ROUSING RECEPTION AT FOND DU LAC LAST NIGHT.

He Says 16 to 1 is the Real Issue—Primary Election Law Plank Was Discussed at Length—La Fayette County Republicans—Orton Nominated for the Assembly.

Fond du Lac, Wis. Sept. 21.—The republican campaign was opened here last night by Robert M. La Follette. The Young Men's McKinley and Roosevelt club, 500 strong, attended in a body, and on entering the opera house gave three cheers and a tiger for La Follette and repeated it for Congressman Davidson, who presided over the meeting. The hall was warm, and after speaking a few minutes Mr. La Follette asked the indulgence of the ladies in the audience and doffed his coat, proceeding with the speech in his shirt sleeves.

16 to 1 the Real Issue.

Mr. La Follette expressed his gratitude for the hearty reception given him on this the first time he had ever addressed and audience in this city.

The Philippine question occupied the greater portion of the time. Particular stress being laid upon the policy outlined by Bryan in his acceptance speech to be pursted by this country in relation to the Philippines, showing the weakness and shallowness of Bryan's statesmanship.

Mr. La Follette declared that 16 to 1 was the real issue, and imperialism and militarism were only covers. This he demonstrated by quotations from Mr. Bryan's speech in the campaign of 1896, and this campaign. The trust question was carefully gone over and Bryan's assertion that the republican party is the "mother of trusts" and "the republican party cannot be relied upon to deal with the trust question," was refuted by the records of both parties in congress and political campaigns.

Takes Up State Issues.

State issues especially on the primary election law plank of the platform were discussed at length and plans for the operation of primary election laws were partially outlined and objections to the practicability of its operation were carefully stated and met. He gave examples of states in which primary elections have been carefully carried on in every one of which they resulted in most satisfactory nominations.

LaFayette County Republicans.

Darlington, Wis., Sept. 21—The republican county convention was held yesterday. Hon. Thomas Bainbridge presided. Resolutions endorsing the national and state platforms and Congressman H. A. Cooper were adopted. Hon. P. A. Orton was nominated for the assembly by acclamation and being called on for a speech he spoke for a short time on national issues. The county ticket is considered one of the strongest nominated in a number of years. Everything passed off harmoniously.

LaFollette and Bohmrich.

Portage, Wis., Sept. 21—About 4,000 people were in attendance at the fair yesterday, despite the threatening weather. Messrs. LaFollette and Bohmrich spoke in the afternoon.

Cooper to Open Campaign.

Racine, Wis., Sept. 21—The Hon. H. A. Cooper will open the republican campaign of Racine, delivering an address at Lakeside auditorium on Sept. 26 on the political issues of the day.

CLOUD BURST AT FORT WORTH TODAY

Dallas, Texas, Sept. 21—[Special Telegram]—A Western Union bulletin says a cloud burst occurred near Fort Worth today. Many are reported drowned in the Trinity river bottoms. Three bodies were discovered at Fort Worth. A thirty foot rise in Trinity river is reported sweeping down towards Dallas.

KAISER'S PROGRAM ALARMS POWERS

Feared That Germany Will Enter Into an Aggressive Campaign.

MAY BE WAR IN CHINA

Cabinet Meeting Held Today at Washington to Answes the German Note.

SITUATION IS VERY CRITICAL

Washington, Sept. 21—Germany's drastic program in China has alarmed the American government and may lead to an early withdrawal of General Chaffee's forces from Pekin. This is the most important of a number of phases of the Chinese problem which the president and his cabinet are expected to dispose of at the meeting this afternoon.

It was announced at the state department today that President McKinley is anxious to clear up the dockets as to China before his return to Canton later in the week.

Fear the Action of Germany.

All the indications are that when Count von Waldersee arrives at Pekin about a week hence, there will be no American troops there to witness his entry to the capital. Minister Conger will be there no doubt, and he will have a legation guard of two battalions of marines, But by that time all the regulars may be on their way to Taku.

It is feared in government circles here that Germany is about to enter upon an aggressive campaign in China; that Count von Waldersee's arrival at Pekin will be the signal for arrests of Chinese suspected of crimes; that raids upon towns supposed to be harboring boxers will follow.

The fear goes beyond this. There is anxiety lest the other powers, or some of them, endeavor to restrain the Germans, thus bringing on a vere strain in the international situation.

Chinese Anxious for Peace

With another crisis approaching, the Chinese viceroys are doing everything in their power to get peace negotiations under way before the arrival of Count Waldersee at Pekin.

Minister Wu today fairly begged this government to instruct Minister Conger to open negotiations. He also presented an appeal from the viceroys of Nankin and Wu Chang that no more expeditions be sent out to punish Boxers, as such raids greatly inflamed the natives.

As a result of today's cabinet meeting it is expected that two notes will be authorized. One will inform Germany that while the United States insists upon punishment of guilty Chinese officials, it would prefer to make ascertainment of the identity of the offenders and punishment of them a part of the negotiations, not preliminary thereto.

The other will inform Prince Chirg that for the present Minister Conger is not authorized to open negotiations.

News From Gen. Chaffee.

Washington, Sept, 21—[Special Telegram]—Gen. Chaffee cables from Pekin, Sept. 19th, via Taku: "The Rockhill-Wilson expedition has returned and their object was successfully accomplished. No casualties to our troops. Forsythe's squadron which started northeast forty miles to remove native christians has returned bringing back fourteen. The surrounding country is daily growing less hostile so far as my expedition can determine."

Rioting at Shontak

Hong Kong, Sept. 21—Special Cablegram]—Anti-foreign rioting occurred on Wednesday in the Shontak district near Canton, and three missions were destroyed. The native christians escaped to Canton. The French gunboat Avalane and the regular force of Chinese soldiers is proceeding to Shontak.

Li Interviews Alexieff

Shanghai, Sept. 18—[Special Cablegram]—Li Hung Chang had a protracted interview with the Russian admiral Alexieff at Taku, and is now proceeding to Tien Tsin.

Pei Tang Forts Open Fire

Berlin, Sept. 21—[Special Telegram]—A Taku dispatch today says that the Pei Tang forts last night opened fire on the Russian camp, wounding twenty-five. The German battery has been shelling the forts and town since morning.

Railroads Liable in Cattle Sickness.

Communication of Texas fever by infected cars to cattle transported in them is held, in Illinois Central Railroad company vs. Harris (Ill.), 48 L. R. A. 175, to render the railroad company liable for damages.

TWO BIG STEAMERS BURN AT ST. LOUIS

War Eagle and Carrier Destroyed While Lying in Their Docks.

FIVE PERSONS KILLED

Four Colored Firemen and Clerk Joseph Schultz Cremated in the Hold.

MANY HAD A NARROW ESCAPE

St. Louis, Sept. 21—[Special Telegram]—Fire destroyed the steamers War Eagle and Carrier early this morning, ruining the wharfage between Olive and Locust streets, and causing a loss of one hundred thousand dollars.

Five persons are supposed to have lost their lives, four colored firemen asleep in the hold of the War Eagle, and clerk Joseph Schultz of Salem, Ill., whose body was recovered.

The employes and the passengers in the Eagle had narrow escapes. The fire started from a lantern in the Eagle, and was discovered by watchman Kirchner, who promptly smashed open the cabins and released the passengers.

TO BE LARGEST OF ALL TRUSTS

Amalgamation of Four Great Telegraph and Telephone Companies Is Said to Be Near.

New York, Sept. 21—Over $200,000,000 is thus far involved in what will be the greatest combination of capital in existence in the United States. This is the prospective amalgamation of the telegraph and telephone companies throughout the country. In its forth coming issue the Electrical Review thus editorially forecasts the success of the movement:

"There has been numerous rumors of late concerning the probable amalgamation of all the telegraph and telephone companies of the United States. The Electrical Review was recently informed that rapid progress was being made in this direction by the financial interests controlling the four leading companies. These are the American Telephone and Telegraph Company, which now includes the American Bell Telephone Company, the Telephone, Telegraph and Cable Company of America, the Western Union Telegraph Company and the Postal Telegraph and Cable company.

"It is predicted by those in a position to know that these interests will be consolidated into one big company to be known as the National Telephone and Telegraph Company and that such consolidation will be accomplished before the end of the present year."

IS ARRESTED FOR THE MILLER MURDER

Michael Jordon, Butcher, Admits the Killing, But Insists Death Was Due to an Accident.

Milwaukee, Wis., Sept. 21—Michael Jordon, a South side butcher was arrested yesterday afternoon for the murder of Louis Miller. He bears an excellent reputation, claims that he wrestled with Miller and threw him on the sidewalk but did not intend to kill him. He said that he and a man named Ed Locker were going to the theatre and that Locker's wife followed them and objected to her husband going. Locker and his wife were talking the matter over when Miller came up and wanted to know what the trouble was. Jordon told him to go away and when Miller refused, grabbed him, and throwing him caused his death.

High-Priced Pictures.

Five pictures brought over $25,000 apiece in the last London season. Romney's portrait of Charlotte Perse was sold for $36,750, Hobbema's "Water Mill" for $32,050, Millais "The Boyhood of Raleigh," bought for the Tate Gallery, for $27,300, and the two Van Dyck portraits from the Peel collection, which sold for $121,250. Four portraits of the Arundel family, by Sir Joshua Reynolds, were sold in one lot for $57,750.

Chicago, Sept. 21.—Mrs. Mary Elizabeth Lease, formerly of Kansas, but now of New York, yesterday announced formally that she is going to take the stump for McKinley, Roosevelt and expansion. She is at the Palmer House having a conference with Senator Hanna at the republican headquarters. Incidentally she took occasion to pay her compliments to Mr, Bryan Mr. Stevenson, and the democratic party in general.

NO MORE CITY BULLETINS.

Those Under 25,000 Will Not Be Sent Out State Populations Next

Washington, D. C. Sept. 21,—Director of Census Merriam said today that the announcement of the population of cities is practically completed as no bulletins will be issued for a town under 25,00. The next bureau, he said, probably will begin next week announcing the population of the states. The first will be Arkansas and thereafter they will be issued in alphabetical order, beginning with Alabama. It is thought that all of the states will be given out before congress assembles. The returns from the several states will also show the population of cities under 25,000.

I. O. O. F. EXCLUDES INDIANS

Meeting of Sovereign Grand Lodge at Richmond, Va.

Richmond, Va., Sept. 21—At today's session of the Sovereign Grand Lodge, I. O. O. F., all the proposed amendments to the constitution were rejected. One of the most important of them was a proposition to admit into the membership of the order Indians with one-eighth white blood in their veins and also to reduce the limit from 21 to 18 years.

DEWEY SAYS THAT HOBSON IS RIGHT

NEVER CLAIMED HE SANK THE SPANISH WARSHIPS.

He Destroyed Them—Declares, However, He Saw One Shell Sink the Reina Maria Christina—Hobson's Statement Creates a Sensation in the Navy Department.

New York, Sept. 21—Admiral Dewey, at the home of his brother in-law Admiral Nicoll Ludlow, in Oakdale, L. I., where he is now a guest, did not appear to be especially disturbed over the interview with Lieutenant Richmond P. Hobson, published in this morning's papers:

He said: "I hardly think the young man meant to say anything unkind:

The facts are briefly as follows:

Three Vessels Not Much Hurt

"The three vessels which he refers to, the Isla de Cuba, Isla de Luzon, and the Don Juan de Austria, were found to be least injured of all the ten or twelve ships that were sunk. Naval Constructor Capps an able man, was with me, and with the aid of his divers and experts from Hongkong made an examination and decided that these were worth saving. They were raised and temporary repairs were made. The vessels proceeded under their own steam to Hongkong and they had been there for some time undergoing repairs before Hobson ever saw them.

Destroyed the Ships.

"As a matter of fact, I never claimed that we sunk the ships. I reported that we destroyed them,' But I did see, with my own eyes, an eight-inch shell strike the stern of the Reina Maria Christina, Admiral Montejo's flagship, and that destroyed it.

"The statement that the vessels were not much injured below the waterline is probably true. Everyone knows that it is impossible for shells to do much execution below the watea line, or for anything but torpedoes to do much damage there.

"I hardly think it worth your while to pay much attention to this," continued the Admiral, as he selected a walking stick and started for a stroll. "You know it is human nature to depreciate what others have done," and Admiral Ludlow nodded his approval.

Hobson Makes a Sensation

Washington, D. C. Sept. 21.—Naval Constructor R. P. Hobson's interview at Vancouver, in which he is quoted as saying that the Spanish ships at Manila were little better than helpless hulks when Dewey attacked them has created a sensation in the Navy department. It may lead to trouble for Hobson. He is a fearless talker accounted somewhat indiscreet by his associates in the Construction corps.

CHEERS FOR TEDDY AT SALT LAKE CITY

Salt Lake, Sept. 21—[Special Telegram]—Roosevelt refused to ride at the head of a parade of seven hundred rough riders given in his honor. His reception, however, was most cordial. He speaks this afternoon at Saltair and this evening at the opera house.

Both of the young people are prominent in society circles and have a host of friends who extend congratulations.

CIVIL LAW AGAIN RULES GALVESTON

Military Rule Discontinued in That City at Noon Today.

LABOR AT A PREMIUM

More Men Needed to Assist at Clearing Away Debris and For Building.

SUGGEST BIG RELIEF FUND

Galveston, Tex., Sept. 21—[Special Telegram]—Today at noon martial law ceased to be operative in Galveston and the civil authorities assumed direction of municipal affairs.

This was done at the suggestion of Adjutant General Scurry, who expressed the belief that conditions had reached such a stage that the civil authorities were able to cope with the situation.

This, however, does not mean the immediate withdrawal of the militia. It will co operate with the city officials in the enforcement of order, and will continue on police duty as a part of the government. In all probability the militia will remain here for the next twenty days. The shooting of negroes by military men for looting has in a measure terrorized the offenders; still there are cases of robbery reported daily which are being dealt with severely.

Labor At a Premium.

Labor in Galveston is at a premium. There is not an idle man in the city. Regardless of station or position a man must work. The merchant and his clerk are working side by side along with the man who has known nothing but hard work since the time of his childhood.

It is imperative that the wreckage about the city be cleared immediately. The stench arising from the bodies beneath the ruins is becoming unbearable. Today orders were issued to impress every able bodied man for street cleaning service. Over 500 men were secured under the order, and fully 2,000 men are now engaged in the work. Still this force is not sufficient, and more men must be secured. Men for this service are to be imported from the interior of the state.

Big Relief Fund Suggested.

S. E. Barton, a nephew of Clara Barton of the Red Cross socity, has arrived here from New York. In an interview he suggested the raising of a fund of from $5,000,000 to $15,000,000 to aid the Galveston people in rebuilding their homes. An appeal of this nature will be made to the people of the United States Mr. Barton also advocated the building of a sea wall around Galveston, which he said would protect the city and inspire confidence.

BLACKS FLOCKING TO THE CHURCHES

White Citizens of a Parish Near New Orleans, Exterminating Negroes Suspected of Burglary.

New Orleans, Sept. 21—[Special Telegram]—Tuesday night the residence of Mrs. Hotfelter, in Ponchtalo village, Tangipahoa parish, was entered and robbed of $250 by negroes. The woman was choked and frightened until she lost her mind. Fourteen suspects were arrested and thrown in jail.

Last night a committee of whites commanded Sheriff Nix to give up the keys. He refused and the doors of the jail were broken with axes. Isaih Rollins, Nathaniel Rowman, Charles Elliot and George Bickham were taken out and hanged to a tree.

The citizens are still scouring the parish hunting the negroes and jailing them. The blacks are flocking to the churches and praying.

ONE MILLION FEET OF LOGS ARE LOST

Marinette, Wis., Sept. 21—[Special Telegram]—Mann Bros., of Milwaukee and two Rivers, sustained a big loss during the heavy storm on Lake Michigan. Two rafts containing one million feet of logs went to pieces near Fox River. The loss will be over $50,000.

THE NEWS FROM COUNTY TOWNS

EDGERTON.

Edgerton, Wis., Sept. 21—The movement of the new tobacco crop is still going on at a lively pace in Vernon county and it is estimated by the Tobacco Reporter that more than two thirds of the crop has been contracted for up to date and that the bulk of it has been secured by local packers. The average price is believed to be about 8½ cents per pound for bundle delivery. There is no buying in other localities as heard of yet. The Philadelphia packer, Mr. M. Bamberger was here during the week and has been up in Vernon county with Mr. H. McInnes. He reports the purchase of Shannon & Eckhart's packing of 600 cases of '99. Mr. Bamberger left on Tuesday evening for Chicago for a few days stay before going east.

From statistics based on the assessor's returns from the principal tobacco growing counties of the state it is learned that the acreage for the present year foots up 31,536 acres as against 26,786 during the year 1899. In 1896 there was but 12,250 acres and this shows that in the four years the acreage has more than doubled.

There were 3365 acres of tobacco grown in Vernon county this year according to the returns made by the assessors. This is on increase of nearly 800 acres over the crop of a year ago.

* * *

The new telephone line of the Badger State company from Edgerton to Stoughton and Fort Atkinson is being pushed along rapidly and the poles are set as far as Albion. When completed the inland towns of Albion, Amos, Rockdale and Cambridge will be connected, thus giving them an outlet to most of the cities in Southern Wisconsin.

SCHOOL ART AUXILIARY MEETS

Business Meeting at High School Building Last Night.

A business meeting of the School Art Auxiliary was held at the High school building yesterday afternoon. The officers and members of the standing committee made plans for the work of the coming season.

Much of the meeting was devoted to the discussion of the advisability of securing Madam Sophia Frieland for a series of lectures on "The Advancement of the Russian Woman," "Russian Literature," "Russina Music" and "Russian Art," the last named one to be illustrated by stereopticon views.

The committee was appointed to see if by subscription sale enough tickets to the course could be sold to warrant them engaging Madam Frieland. While the Art Auxiliary would like to make something out of the course the main object is to secure itself against loss.

Plans were also made to secure a number of noted people who are in touch with the movement.

WONDERFUL CURE OF DIARRHOEA

A Prominent Virginia Editor Had Almost Given Up, But Was Brought Back to Perfect Health by Chamberlain's Colic Cholera and Diarrhoea Remedy---Read His Editorial.

[From the Times, Hillstille, Va.]

I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of thae trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. Tremulous Hands.

When the nervous system is weakened, the body generally shows the symptom of tremulousness in some of its members. The hands shake, the lips twitch at the corners, or the eyelids quiver involuntarily. Such a condition calls for medicine which feeds the nerves. Dr. Pierce's Golden Medical Discovery, acting directly on the stomach and organs of digestion and nutrition, has a wonderful influence in restoring nervous force. It quiets the nerves not by drugging them into stupor but by feeding them into strength.

The "Discovery" has restored the health of thousands of those who were utterly hopeless, giving them back natural appetite, physical vigor, healthful sleep and mental strength. There is no alcohol in "Golden Medical Discovery" and it contains no opium, cocaine or other narcotic.

David Duggins, Esq., of Jones, Ohio Co., Kentucky, writes: "When I began taking Dr. Pierce's Golden Medical Discovery I think I had nervous or general debility of three years' duration. I took three bottles of the 'Discovery.' During the time I was taking it my sleep became more refreshing and I gained fifteen pounds weight, and also gained strength every day."

Free, on receipt of stamps to pay expense of mailing *only*, Dr. Pierce's Medical Adviser, 1008 pages. Send 21 one-cent stamps for book in paper covers, or 31 stamps in cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

CONDITIONS IN THE ISLANDS.

Warfare in the Philippines of Guerrilla Nature.

Washington, Sept. 21.—In the report of the Philippine commission from Manila to the secretary of war, it is stated that all Northern Luzon is quiet and substantially free from insurgents.

The commission's report in part is as follows:

"Mass of people has aptitude for education, but is ignorant, superstitious and credulous in a remarkable degree. Hostility against Americans was originally aroused by absurd falsehoods of unscrupulous leaders. Distribution of troops in 300 posts has by contact largely dispelled hostility and steadily improved temper of people. This improvement, furthered by abuses of insurgents, affirms that large numbers of people long for peace and are willing to accept government under the United States. Insurgents not surrendering after defeat have divided into small guerrilla bands under general officers or become ladrones. Nearly all prominent generals and politicians of insurrection except Aguinaldo have since been captured or have surrendered and have taken oath of allegiance.

"Policy of leniency culminating in amnesty had marked effect to induce surrenders until defining of political issues in United States, reported here in full, gave home to insurgent officers still in arms of changed policy and stayed surrenders to await result of elections. Disturbances in parts of island, kept up and avowed by insurgent proclamation and orders to influence election, do not show unfriendly attitude of majority of people of provinces where they occur, but only activity of small insurgent bodies in mountain fastnesses whence they issue for usually harmless night attacks or murderous ambush of small American squads or to collect contributions or recruit from people, terrorized by cutting out tongues, cutting off limbs, burying alive, murder and plunder.

"Difficulty of detection enables insurgents to maintain surveillance over people even in some garrisoned towns. Uncertainty as to future policy of United States and defenselessness of people without arms largely prevent them aiding Americans in suppressing outrages. Despite these difficulties, maintenance of status quo makes for more peaceful conditions."

BIG STORES AND TRADE.

American Consul Says Such Establishments Abroad Would Help Exports.

New York, Sept. 21.—A special to the Herald from Washington says that Vice Consul-General Hanauer, in an official report to the state department from Frankfort, Germany, advocates the establishment of American department stores abroad, as a means of increasing the export trade of this country. He writes: "I am confident that such a concern established in Frankfort could within a few years sell American specialties alone to an amount of $3,000,000 to $4,000,000 annually and distribute further quantities by giving agencies to leading dealers of interior towns and cities."

Populists' Texas Ticket.

San Antonio, Tex., Sept. 21.—The Populist state executive committee, having failed to make a fusion arrangement with the Republican party of Texas, has revised its entire state ticket and will make a thorough state canvass. Jerome Kearby, the Populist convention nominee for governor, who is ill and unable to make a canvass, was pulled down and in his place Judge T. J. McMinn, a lawyer of San Antonio, was substituted. Two vacancies on the ticket were also filled as follows: For associate justice of the Court of Criminal Appeals, George J. Todd of Jefferson; for associate justice of the Supreme Court, George D. Green of Cleburne.

Justin McCarthy Retires.

London, Sept. 21.—Justin McCarthy, the novelist and historian, who has been a member of parliament for North Longford since 1892, and who was formerly chairman of the Irish parliamentary party, announces his retirement from parliamentary life on account of failing health.

Roger Wolcott Declines.

Boston, Sept. 21.—The Journal today announces that former Governor Roger Wolcott will not accept the post of ambassador to Italy, tendered him by President McKinley. He has notified the state department by cable from Europe and also by letter.

San Antonio, Texas Makes Good Gain.

Washington, D. C., Sept. 21.—The population of the city of San Antonio, Tex., as officially announced, is: 1900, 53,321; 1890, 37,673. These figures show for the city, as a whole, an increase in population of 15,648, or 40.54 per cent. from 1890 to 1900.

WHERE ARBITRATION WORKS.

H. H. Lusk Says It Settles Labor Troubles in New Zealand.

Washington, D. C., Sept. 21.—H. H. Lusk, formerly a member of parliament of New Zealand, before the industrial commission explained the system of arbitration in New Zealand, which, he said, has been extremely satisfactory. This system was in the form of compulsory arbitration, and it had six years trial. The fact that there is compulsory arbitration there made both employe and employers very careful as to the justice of their cases before they act.

In these courts of arbitration in New Zealand no lawyers are allowed to appear; only the interested parties are heard. Labor organizations there are generally incorporated and they have found no disadvantage in such incorporations.

The arbitration law had been favored by the employes and fought by employers before it was enacted. Up to last year three-fifths of all labor in New Zealand was organized. Practically, the scales of wages in New Zealand are made by the labor organizations for the men outside the unions as well as those within it. The arbitration court of New Zealand never fixes the maximum rate of wages; it simply fixes the minimum rate of wages that can be paid. The operation of this system, he said, does not hamper industries, for the reason that in the six years it has been in operation the industries of New Zealand have increased one-third. This was by an increase in old industries and the springing up of new ones.

The eight-hour law prevails in New Zealand. No woman can be employed in a factory there until she is at least eighteen years of age, and then she cannot be employed more than forty-four hours a week, which allows an eight-hour day and a half-holiday. No child can be employed in a factory under sixteen years of age.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels.

Cures croup, sore throat, pulmonary troubles—Monarch over pain of every sort. Dr. Thomas' Electric Oil.

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents.

A blessing alike to young and old; Dr. Fowler's Extract of Wild Strawberry nature's specific for dysentery, diarrhœa and summer complaint.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

A Word to Mothers.

Mothers of children affected with croup or a severe cold need not hesitate to administer Chamberlain's Cough Remedy. It contains no opiate nor narcotic in any form and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise it has received throughout the United States and in many foreign lands. Insane Man's Awful Deed.

Sumpter, Ore., Sept. 21.—Fred Kane, who lived six miles northwest of this place, in a fit of temporary insanity shot his wife and young stepdaughter and burned the body of the latter by setting fire to their cabin home. He then attempted suicide by shooting himself. He and Mrs. Kane are thought to be mortally wounded.

Gentlemen:—I must say in regard to GRAIN-O that there is nothing better or healthier. We have used it for years. My brother was a great coffee drinker. He was taken sick and the doctor said coffee was the cause of it, and told us to use GRAIN-O. We got a package but did not like it at first, but now would not be without it. My brother has been well ever since we started to use it. Yours truly,

Falls from Rising Balloon.

St. Joseph, Mich., Sept. 21.—L. J. Kahler, the balloonist who has been exhibiting at the street carnival here, was hurled from his balloon as he was making his regular ascension and dashed head first to the pavement below. The accident was due to the parting of the ropes when they came in contact with the live wires that feed the street railway trolley. The young man's skull was fractured in several places and his death is considered certain.

OUR STANDARD BEARERS.

M'KINLEY AND ROOSEVELT.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

MR. BAKER ON SHAMS.

W. T. Baker, ex-president of the Chicago Board of Trade, and a life long democrat will vote for President McKinley this fall. Mr. Baker is still a free trader and a believer in the old time democracy. He has been prominent in the work of the National Tariff Reform league and has served as president of the Chicago Civic federation and was also president of the World's fair. In his letter announcing his intention to vote the republican ticket, he said:

The democratic organization has passed under the control of public enemies, and no man who holds to the traditional doctrines of the party is under the slightest obligation to follow the present leaders.

The policies that guided the party from Jefferson to Cleveland have been sidetracked for the isms of populists and anarchists. Even free trade has given way to Bryan's promise that he will "recommend such additional legislation as may be necessary to dissolve every private monopoly which does business outside of the state of its origin."

This would mean under populist interpretation and control the limitation of all successful enterprise within state lines; not a captivating programme to suggest at the moment when American commerce is being pushed beyond the seas.

The democratic crusade against expansion, termed "imperialism," is an absolute sham, a silly and hypocritical invention to divert attention from their revolutionary purposes. Expansion has been the policy and practice of the American people since the pilgrims landed on Plymouth Rock, and no man who understands the real spirit of our institutions can be frightened by the phantom of imperialism which Bryan has conjured up for this campaign only.

Since Napoleon Bonaparte there has been no greater imperialist than Bryan himself. His will is the law of the party that supports him, and, if elected, he would endeavor to rule the entire nation with the same iron hand. Napoleon deluged Europe in blood to reach a throne, and Bryan would not hesitate to wreck every industry in the land to attain the presidency.

This talk of imperialism is like the rattle of the snake that hurts nobody. It is the head of the reptile that is dangerous, and there you will find the free silver bite.

The paramount issue is exactly the same now that it was in 1896. It is the 16 to 1 and lawlessness, as personified in Bryan, versus the gold standard and the security it brings. I shall vote for McKinley as representing the latter. WILLIAM T. BAKER.

Chicago, Sept. 19, 1900.

Mr. Baker states the case well, and his letter makes his points clear. That thousands of democrats entertain the same opinions goes without saying. Many of them have made public declarations, and many more will do so before the campaign ends, but the "vest pocket vote," in the present campaign, will be remarkable for its size.

The most effective speaker, for the republican cause, in this campaign, has been The Hon. William Jennings Bryan. His expositions of the alleged danger that beset the country, has been so artificial that he has injured his own cause. Empty talk makes no converts these days. The people want the plain facts. Bryan, however, offers them nothing but speculation and prophecy, and the fact that none of his predictions of four years ago came true leads people to take his present prognostications with a liberal grain of salt.

The Philippine commission reports greatly improved conditions on the islands, and says that only guerilla warfare is being waged. The November elections will end all of that, and then the development of the country will begin. The islands are rich in natural resources, and will be of unestimable value.

Candidate Bohmrich declares that Wisconsin people will elect him governor by 50,000 majority. Evidently Mr. Bohmrich is of a practicularly buoyant and hopeful disposition, and it well that such is the case. A man so constituted stands hard knocks better than the other fellow.

As Mr. LaFollette said at Milwaukee, republican anti trust legislation met its death at the hands of the democratic congressman. Our democratic friends are rough on the trusts in a conversational way, but when it comes to action they take the other track.

Senator Jones says "Bryan will carry New York, Connecticut, New Jersey, West Virginia." Certainly Senator, but you evidently forgot to say that he would carry them for McKinley.

Mr. LaFollette's Milwaukee speech was a clean cut and forcible exposition of the party principles and platform and made many votes.

However, the Chinese will be wise in avoiding Shen An Agan when it comes to peace proposal. No fooling will go now.

Minnesota's primary election law has been tried and pronounced a success.

The way of the transgressor is hard.

Honesty is the best policy.

If the coat fits put it on.

Turn the rascals out.

JOHN A. M'CLERNAND HAS PASSED AWAY

Noted Illinois Veteran of the Civil War Expires at His Home in Springfield.

Springfield, Ill., Sept. 21.—General John A. McClernand, one of the last of the civilians appointed to high command in the civil war, died at 1:10 o'clock this morning at his home in this city. All the members of the family except one son, Colonel Edward J. McClernand, who is now in the Philippines, were at his bedside when the end came.

His death was the result of old age and general breaking down of the system. He had been in feeble health for years, and two years ago suffered an attack which nearly ended fatally. About two weeks ago he was attacked with dysentery, and, while this was cured, he never rallied. He had been unconscious for the last twenty four hours, and had only been kept alive by constant use of hypodermic injections of strychnine and nitroglycerin.

DESTINATION OF SUN.

Herschel's Conclusions of Century Ago Are Being Verified.

More than a century ago Sir William Herschel was able to fix roughly what we call the apex of the sun's way in space, or the point among the stars toward which that way is for the moment directed. We say for the moment, but we meant that moment of which Bradley saw the beginning in 1750, and upon whose end no man of those now living shall ever look. Herschel found that a comparison of old stellar observations seemed to indicate that the stars in a certain part of the sky were opening out, as it were, and that the constellations in the opposite part of the heavens seemed to be drawing in, or becoming smaller. There can be but one reasonable explanation of this. We must be moving toward that part of the sky where the stars are separating. Just so a man watching a regiment of soldiers approaching will see at first only a confused body of men. But as they come nearer the individual soldiers will seem to separate, until at length each one is seen distinct from all the others. Herschel fixed the position of the apex at a point in the constellation Hercules. The most recent investigations of Newcomb, published only a few months ago, have, on the whole, verified Herschel's conclusions. With the intuitive power of rare genius Herschel had been able to sift truth out of error. The observational data at his disposal would now be called rude, but they disclosed to the scrutiny of his acute understanding the germ of truth that was in them. Later investigations have increased the precision of our knowledge, until we can now say that the present direction of the solar motion is known within very narrow limits. A tiny circle might be drawn on the sky to which an astronomer might point his hand and say: "Yonder little circle contains the goal toward which the sun and planets are hastening today. Even the speed of this motion has been subjected to measurement and found to be about ten miles per second."

Female Mosquitoes Are Vegetarians.

The female mosquitoes are normally without much doubt plant feeders. Why they should draw blood at all is a question which has not been solved.

SOLDIERS NOW ON THE MOVE.

Active Military Operations Resumed.

WILL DISPERSE THE BOXERS.

United States Troops Taking a Leading Part in the New Movements—Enemy Supposed to Be Strong at Pei Ta Chu—Want the Arsenal.

London, Sept. 21.—A dispatch from Pekin, dated Sept. 15, says:

"Active military operations are about to be resumed with a view of insuring coal and food supplies, opening the northern passes, and restoring trade.

"General Chaffee and General Barrow, second in command of the British troops, held a conference and decided to dispatch an Anglo-American column, 1,300 strong to San-Hai-Tien, under General James H. Wilson, capture the arsenal there, and disperse the Boxers.

"The column, which will leave tomorrow, will include two battalions of the Ninth United States infantry, a detachment of the Fourteenth United States infantry, 500 British, and four guns.

A later dispatch from Pekin, dated Sept. 16, says:

"General James H. Wilson, with 800 Americans and 600 British troops and six guns, marched westward today, and the Germans will move tomorrow to co-operate in taking Pei Ta Chu, where the enemy is supposed to be in large force. The American commander will attack from the west and the Germans from the east. General Wilson will then take the arsenal.

The British have countermanded the orders for winter clothing, and, it is reported, will fall back to Wei Hai Wei.

The German legation is expected to withdraw on Friday, Sept. 21, and it is generally reported that the Americans will withdraw, but General Chaffee refuses to confirm the rumor.

Story of Wholesale Massacre.

London, Sept. 21.—The Standard prints a story, describing an alleged wholesale massacre of Chinese at Blagoveschensck. It sounds very much like a "fake," for it says that "there were resident at that town 5,000 Chinese, including women and children, and when the recent trouble began the Russians, first in isolated cases and later in larger bodies, sought out the Chinese under pretense of seeing that they had no arms," and then drove them into the river and drowned the whole 5,000. The correspondent, not satisfied with this story, caps the climax by dispatching that "In Chinese villages and strewn about the Russian bank of the Amur river not less than 7,000 men, women and children were similarly put to death."

Druggists Elect Officers.

Chicago, Sept. 21.—The merrymaking and "business" sessions of The merrymaking and "business" of the annual convention of the National Wholesale Druggists' association, Proprietary Association of America, American Pharmaceutical association and National Retail Druggists' association closed in a banquet at the Auditorium hotel. The next convention will be held in Montreal in September, 1901. Following are the officers elected: President, William J. Walker, Albany, N. Y.; vice-presidents, F. S. Churchill, Burlington, Ia.; F. M. Robinson, New York city; E. C. Smith, St. Joseph, Mo.; H. W. Williams, Fort Worth, Tex.; C. F. Michaels, San Francisco, Cal.; secretary, A. B. Merriam, Minneapolis; treasurer, S. E. Strong, Cleveland, O.; chairman proprietary committee, C. F. Shoemaker, Philadelphia.

Fire in Great Warehouses.

New York, Sept. 21.—Five policemen were overcome by smoke in a fierce fire in what is known as the Terminal Stores, a warehouse block bounded by Twenty-seventh and Twenty-eighth streets and Eleventh and Twelfth avenues. The fire loss is estimated at $220,000. The stock, principally furniture and carpets, in the buildings, estimated at several millions, is stored by a number of leading New York houses. The building alone cost $1,200,000. The principal losers are Smith Brothers on antique furniture, and Erich Brothers, general furniture stock in storage.

Fashionable Chirography.

In chirography the large hand, both English and round, is affected, and to be quite up to date one should not write more than three or four lines on each page. In beginning a letter or note the preference is given to the fourth page and the letter is continued over the first page, then on the second, ending on the third. Some prefer to write only on the fourth and first pages, leaving the second and third blank. No particular style of pen is used exclusively this season and either steel or diamond point is chosen to suit the fancy of the writer. Dresden china penholders are as plentiful as blackberries in their season and come with both gilt and silver mountings. A very aristocratic-looking holder is of tortoise shell twisted to resemble a horn and mounted with silver in an antique design.

WM. ERNST,

MANUFACTURER. JANESVILLE.

LINE WILL SOON BE READY FOR BUSINESS

JANESVILLE & SOUTHEASTERN FINISHED IN SPOTS.

One of the Big Steam Shovels Has Completed its Work and is Shipped Away —All the Grading Will be Completed on Time—Track Laying Will Soon Begin.

The grading on the right of way of the Janesville & Southeastern railroad is rapidly approaching a completion. The work between Janesville and Emerald Grove is practically completed. Mr. Peck, one of Winston Bros., men has finished his part of the contract and has shipped his horses and a large part of his tools home.

One of the large steam shovels operated by Winston Bros. has finished its work and will be brought in from the pit at once and shipped home. All along the right of way sections of the contract work are completed and the horses and the tools are being shipped home. Other contractors who have more difficult pieces of the work have not yet finished, but will by the time called for in the contracts.

The engineer in charge of the work states that he has every reason to believe that the grading will be completed on time. The contracts calling for the work to be finished ready for the rails by November 15.

Track laying from this end of the line will soon commence. The opening under the C. & N. W. tracks at Monterey being about completed and as soon as the fill east of Center avenue across the arm of the river is finished connection will be made with the track on the new trestle running from Snipe hill across the river and a large force of men put at work laying the track.

The work of filling on the line of the trestle work is being rushed and every day sees more and more of the piling covered up with the gravel. Two engines and four large automatic dump cars are being used to make the fill. They keep the steam shovel busy getting out gravel and sand from Snipe hill to fill them.

The dump cars used in this work are of the latest pattern and it is quite interesting to watch them dump a load. They are worked by the engineer on the engine and are controlled by the air brake. The engineer can dump the load on either side of the track by operating the air on the side he wishes the load to fall.

When this line of track is completed there will be no better line of road in Wisconsin and fast time will be made between Janesville and Chicago.

The line betwtee Chicago and Libertyville is now in operation and it is reported that the right of way is perfect.

Janesville will be well supplied with passenger trains between different points when the new line is once completed. At present there are about fifty passenger trains in and out of the city over the two lines every day and the new line will add considerably to that number.

COMMITTEE MEETS WITH GOOD SUCCESS

At Work Collecting Subscriptions For a Bonus to Choate Hollister Works to Rebuild.

The committee appointed by Mayor Victor P. Richardson at the meeting held in the council chamber Wednesday night to solicit subscriptions from the citizens of Janesville to help rebuild the Choate-Hollister factory, have been making a canvas of the town for the last two days.

They have met with good success and hope that in a day or two more they will have enough subscribed to make the plan a success.

The Choate-Hollister factory is not an uncertainty but a business that has proved itself capable of being one of the solid interests of the town. Anyone that subscribes to the fund, can feel that his money has been invested in a business that is a credit to the city and worthy of the heartiest support.

A plant that will give employment to seventy hands, a large majority of whom are the heads of families and who spend their money with the merchants of the city, should be encouraged as much as possible.

The gentlemen that compose the committee, have no pecuinary interest in the rebuilding of this work. They are giving their time to this work, because they feel it is for the best interests of the city to have the plant rebuilt.

Bemis-Pierson.

At 8:30 o'clock last evening at the Congregational church parsonage, Rev. Robert C. Denison united in marriage Miss Marie L. Bemis and Roy Pierson, both of this city. The happy couple were attended by Myrtle Hayner and Fred Pierson. Both the young people are well known in this city and have a large circle of friends and acquaintances who extend congratulations. They left for Madison last evening and after a short wedding trip will return and reside in this city.

Well-Diggers' Rheumatism.

Wellndiggers are subject to many ailments beside rheumatism. The sudden and frequent changes they make from hot to cold atmosphere often bring on diseases of the nervous system. One man so employed in an eastern state recently had fifty convulsions in a single day. The trouble puzzled the physicians until they discovered that the man's nerve center was shocked by coming out of the cool earth to the hot sun.

BUS DRIVER WELCH HAS AN EXPERIENCE

Fell Into the Clutches of a Gipsy Horse Trader and Bought What He Did Not Want.

Ed. Welch, the genial bus driver for the Grand Hotel, was thinking of giving up his position and going into the horse business. Mr. Welch's long experience with horses has fitted him to this line of business. He has made several purchases of late and has been more successful with some than with others.

Of late he has been looking around for a good horse to drive on the bus and yesterday thought he had secured just what he wanted.

A man with a woman and two children in the buggy with him, leading a large bay horse drove up to the hotel and offered the horse he was leading for sale. Welch looked the animal over and thought he was about what he was after and asked the price of the animal. The price was a little high but after considerable dickering he brought the owner down to his figures and bought the horse

The man drove away and Ed took his new purchase around to the barn, hitched him on the bus and went out to try him. In a short time he came back thoroughly disgusted with his recent purchase. He had brought the man down in price but he had bought a horse that had everything the matter with him a horse could have and navigate, and was not worth a dollar.

After hunting up Chief Hogan and explaining his troubles to him, he hired a livery rig took the Chief with him and started out to find the man who sold him the horse. The man proved to be a gipsy and was camped out two miles west of town near the stone crushing plant.

When the Chief and Welch arrived at the camp. Ed demanded his money back on the ground that the gipsy misrepresented the horse, this the gipsy denied. Finally after much talk and considerable trouble the gipsy was induced to give up the money and come in and get his horse.

Ed. has come to the conclusion that he is not so much of a judge of horse flesh and will trust to some reputable home dealer when he next tries to buy a horse and will pass the gipsy trader up.

Hand-Organ Recitals.

It has been suggested that the best method of disposing of the hand-organ problem would be to adopt the custom in vogue in Boston. In that center of music and art is given once a year what might be called a hand-organ recital. On a day previously announced, all the hand-organs in the city are gathered at one place, and each organ-grinder in turn plays for the benefit of the censor. If the music is up to the Bostonese standard, a license is granted to the organ-grinder; if it be of the wheezy, squeaky variety, the owner is requested to seek some other community where that kind of music is appreciated.—New York Mail and Express.

NEWS OF A PERSONAL NATURE

L. McCrea of Afton is here on business.

Mrs. Minnie Menzies and Mrs. O. F. Nowlan spent the day in Milwaukee.

Mrs. Eugene Stevens of Harvard, Ill., is the guest of Miss Agnes Shearer.

Mrs. Clarissa Loudon of Chicago, is the guest of Mr. and Mrs. Mayhew Loudon.

Mrs. S. A. Bull and Miss Frances Fifield have returned from a visit with Milwaukee and Waukesha friends.

Dennis Hayes, Thornton Read and H. D. McKinney took in the Dane County fair at Madison today.

Mrs. Albert Kenyon and daughter Gertie of Whitewater, are visiting in this city, the guest of Mrs. George A. Warren.

Miss Mary Lyman of Chicago, who has been the guest of District Attorney and Mrs. W. A. Jackson, returned to her home today.

Mrs. Elmer Witherell and daughter Thelma have returned from a month's visit with Mr. Witherell's parents and relatives in Kalamazoo and Detroit, Michigan.

E. G. Fifield returned home yesterday from a six weeks' trip to Kansas, where he has large property interests. He reports an immense wheat crop. The hot dry weather was bad for the corn which is a light crop on that account.

District Attorney W. A. Jackson returned this afternoon from Evansville where he went to attend the examination of Albert Jones who was arrested in this city Wednesday on the charge of forgery. Jones waived examination and was held for trial.

Levi G. Ross goes tonight, to Minneapolis, Minn., where he enters the Department of Medicine and Surgery in the State University. He graduated from the Janesville High school in '99. During the past year he taught the Wiggins school, near Footville.

GENUINE RECIPROCITY.

That Which Does Not Sacrifice the Principle of Protection.

No plank in the Republican platform will more strongly commend itself to the voters than the reference to reciprocity, which is in the following language:

"We favor the policy of reciprocity, so directed as to open our markets on favorable terms for what we do not ourselves produce in return for free foreign markets."

That doctrine will be indorsed by every protectionist. It is the interpretation of "reciprocity" which we long have sought and mourned because we found it not. It definitely excludes such travesties of reciprocity as the French, Argentine, Portuguese and other treaties in which some American interests have been compelled to suffer injury in order that others might profit. In the absence of an explicit definition of reciprocity in previous Republican platforms it has been possible under the guise of "reciprocity" to negotiate treaties of this kind which were ill advised, unjust and destructive of the principle of protection. The Chronicle vigorously opposed all of them and regretted that some stalwart Republicans and protectionists were bulldozed into giving them approval. There will be no more of them.

The Republican party now stands committed to sacrifice no American interest for the sake of promoting foreign trade. That will precisely suit the fruit growers and wool growers of California, who have usually been selected as victims when sacrifices were to be offered. But while local interests may to some extent have spurred The Chronicle to its efforts to defeat proposed treaties the main ground of its opposition has been that they violated the principle of protection, which is the chief bulwark of Republican doctrine and the safety of all of us. The intent of the Republican party in regard to reciprocity matters is now stated in unequivocal terms, and no American interest need fear while that party is in power. It is a happy ending to a controversy which has been annoying and will solidify the party in this state and elsewhere.—San Francisco Chronicle.

It will be recalled that Mr. Bryan wired his congratulations to the late Mr. Goebel upon his "election" to the Kentucky governorship. He should hasten to felicitate the North Carolina red shirts upon the disfranchisement of the negro voters of that state.

For Democrats to Answer.

Foreign steamship lines do an enormous business with the United States, and there are millions of tons of ships employed in regular foreign lines in the carriage of our imports and exports. If it be true, as the Democrats pretend, that ships can be built as cheaply in the United States as they can anywhere, they ought to tell us why it is that not one of these foreign lines ever has built, or is now building, a ship in this country!

The only support that has been found for the declaration against the subsidy bill in the Democratic national platform is among the foreign shipowners.

Mr. Keene's Interest.

Mr. James R. Keene, the Wall street bear, is in England and engaged in telling the newspaper reporters over there that the prosperity on this side of the water is not genuine. Mr. Keene makes his money when the country is financially depressed and his wishes usually take a paternal interest in his published thoughts.

It will be an unfortunate thing for this republic if the job of saving it ever devolves upon the Democratic party.

WHITE RIBBONERS TO MEET OCT. 2-3

Rock County Convention of the W. C. T. U. in Janesville Will Draw a Large Crowd.

The monthly session of the W. C. T. U. held yesterday afternoon was largely attended.

The chief point of interest at the meeting was the formation of plans for the county convention, which will be held in this city October 2, and 3, at which time a large number of delegates will be present. It is hoped to make this convention one of the most successful that has been held in some time. A full notice will be given later when the program has been arranged.

One of the most pleasant features of the sessions was the presentation to Mrs J. C. Kline, by the W. C. T. U. of a handsome red and white quilt.

Mrs. C. W. Van Akin made the presentation in behalf of the ladies in a happy manner. The recepient responded in a few words which could not begin to express the appreciation she felt for the kind gift.

The Printers Will Help.

Typographical Union No. 197, of this city has received the following appeal from the Galveston Union No, 28:

"Typographical Union 197, Janesville, Wis. Standing in the presence of the most overpowering calamity in the history of the Western Hemisphere, Galveston Typographical Union No. 28, sends this appeal to her sister unions for aid to care for the living and bury the dead. Immediate action absolutely necessary. There can be no exaggeration. Conditions are as indescribable as they are horrifying and hopeless. We are absolutely homeless, Send contributions to Frank Willard, chairman relief committee."

In answer a small contribution was sent and the local printers will hold a dance some evening next week to increase the fund. Twelve union printers were killed at Galveston.

St Mary's church took up a collection last Sunday and St. Patrick's church will do so the coming Sunday.

The Janesville Typographical union will give a dance in the near future the proceeds of which will be sent to the Galveston sufferers.

FEAR STRIKE CRISIS IS NEAR.

Intense Calm Thought to Forcast a Storm.

MINERS CONTINUE TO MARCH.

Clergy Still Active and Hopeful—President Mitchell Holds to His Decision to Arbitrate by Whole Districts or Not at All—Railroad Men Left Idle.

Hazleton, Pa., Sept. 21.—Though the fourth day of the great anthracite coal strike has passed without serious disorder, anxiety as to the future is growing steadily more intense. The lull has come. The storm may be close behind. The strikers have begun to march, and marching generally leads to disorder and rioting.

Deputy sheriffs are being sworn in and posted around the various mining properties. In Hazleton this is regarded as an ominous sign.

Priests Do Not Cease Working.

Meanwhile the efforts of the Catholic priests to induce miners and operators to agree to arbitrate are not flagging. Father Phillips departed hurriedly for Philadelphia to discuss the strike with Archbishop Ryan, who ended his tour of the troubled districts. He is expected back and both sides in the struggle are watching what his next move will be.

When asked his attitude toward arbitration, President Mitchell but reiterates his old declaration that the men are anxious for arbitration, but that the entire district must be considered as a unit. Negotiations with individual operators he will have none of. The men at Hazel mine met to discuss questions with their employers. The men were urged to submit their individual grievances to the operators for arbitration, and were about to vote on the proposition to do so when National Organizer Soppitt appeared. He told the men that to arbitrate their claims would be to abandon their fellow strikers, and urged them to refuse the advances of their employers. This the men did by an unanimous vote. Their action practically ties up the shaft, as only a corporal's guard of miners are at work there.

Special Police Held in Readiness.

Sixty-five coal and iron police are quartered in the center of the city ready to respond to a riot call at any minute.

First Serious Riot of Strike.

The most serious affray of the strike occurred in the evening within a few blocks of the center of Hazleton, when a gang of men employed at Shaft No. 40 were attacked by a crowd of strikers. Most of the laborers retreated to the silk mill, which was guarded by special police, but Mine Boss Joseph Griessing and a miner were surrounded by the strikers. Griessing was struck a number of times by stones thrown by the miners and badly hurt. He was unconscious when picked up, but revived. His companion was severely beaten also.

The first death due directly to the present trouble occurred at Lorraine. Henry Knapski, 15 years old, slate picker, was surrounded by a crowd of idlers. Thinking they were going to attack him, the boy fled home, where he died within an hour. Dr. Stearns, the company's physician, announced that death was caused by fright.

Railroad Men Involved.

The coal strike has involved the Lehigh Valley railroad men. During the day all but two coal train crews were laid off because there was no coal for them to handle. Eight hundred men were thrown out of employment.

STRIKERS MAKE GAINS.

Break Among Lattimer Employes Gives Hope.

Hazleton, Pa., Sept. 21.—Reports received at strike headquarters and elsewhere from various parts of the Hazleton region this morning brought nothing but good news to the idle anthracite coal miners. The first information brought here told of a break among the employes in the Lattimer mines, the first that has taken place there during the strike.

This colliery was considered an invulnerable spot, and the break there put the strikers in a good humor. The number of men who quit was quite small, however, but the union men are satisfied that they will make further inroads on the force there.

News from Coleraine.

The next good news received by the strikers came from Coleraine and was to the effect that the colliery there was shut down tight. The McAdoo strikers have been trying for four days to close this place. The Evans colliery at Beaver Meadow also failed to start work this morning, owing to not enough men putting in an appearance to operate the workings. Both Coleraine and the Evans colleries are operated by the A. S. Van Wickle company. All of this company's mines in the Hazleton region are now closed.

Miners Present Grievances.

A committee of three miners employed at the Coleraine mines called upon Superintendent Ayres this morning and presented a set of grievances for the company's conside The grievances are as follows:

"We, the undersigned committee of Coleraine, do hereby ask for two weeks' pay and 10 per cent increase on the dollar; 15 per cent off the dollar on a keg of powder, and that all men get paid for overtime work."

Superintendent Ayres received the men pleasantly and told them they would receive an answer in three days.

More Men in Markle Mines.

A few more men went to work in the Markle mines at Jeddo and Oakdale today than worked yesterday. The strikers say the reason for this was the report that the men who lived in the company houses and dealt in the company stores would not receive the pay that was due them if they did not go to work. This, however, was denied by both the non-union men and the company.

Women Attack Officers.

There was considerable excitement about 6 o'clock this morning in the vicinity of No. 40 shaft of the Lehigh Valley Coal company east of this city. The coal and iron policemen had gone to the houses in that locality and induced a number of breaker boys to go to work, it was charged. Strikers at the same time attempted to persuade the boys to stay out, but retired when they insisted on working. On the way to the shaft a half-dozen foreign-speaking women surrounded the policemen, and, taking the dinner pails from the now frightened boys, threatened to strike the coal and iron men. A mob of 300 persons soon gathered, and for a time serious trouble was feared.

Officers Manage to Escape.

It looked as if the policemen would get the worst of it, but they managed to escape the crowd without precipitating a fight. A few of the boys went to the mines with the policemen, but most of them returned to their homes.

The march to Coleraine, which was arranged for last night by the McAdoo men, did not take place this morning, as they learned it would be unnecessary, a tip having been received that Coleraine would not start today. The march of the strikers from Freeland to Sandy run and Pond creek was also abandoned. The union men, after a conference this morning, decided to organize the men at those places and then ask them to quit.

FIERCE FIGHT IN LUZON.

Gen. MacArthur Cables Details of a Battle with Cailles's Forces.

Washington, D. C., Sept. 21.—A dispatch has been received from Gen. MacArthur which confirms reports cabled to the Associated Press from Manila regarding the activity of the insurgents. The blank spaces are words which could not be deciphered. The dispatch is as follows:

"Manila, Sept. 19.—Adjutant-General, Washington: Considerable activity throughout Luzon. Fighting reported vicinity Carig and Estella, Isabella province. Insurgents estimate 500, probably much exaggerated, but sufficient force to make * * * in district heretofore quiet.

"In the Ilican provinces Samuel B. M. Young (brigadier-general) reports numerous small affairs and has called so emphatically for more force that Kingsbury's squadron, 3d cavalry, and Borden's battalion, 5th infantry, been sent him; other battalion 5th same destination upon arrival. Country north Pasig, including all of Bulacan, very much disturbed and numerous contacts with small parties throughout that district, south of Pasig, including Tayabas province (Luzon) same conditions obtain. This activity has been anticipated and reported upon in letters Aug. 25 * * * and cable Aug. 31.

"Sept. 16 David D. Mitchell, captain 15th infantry; ninety men company L, 15th infantry, from Siniloan, Laguna province, attacked insurgent general, Cailles, who had 800 men in position at Mavitac. Desperate fight followed, which was pushed from the front with great pertinacity by Mitchell, across causeway and through water waist deep. Attack under George Cooke, captain, with forty men, company K, 15th infantry, and ten men, company B, 37th volunteer infantry, could not reach enemy's position because of high water in arm of lake, which could not be crossed; entire country was afloat in consequent recent rains; this very much impeded offensive action.

"After hour twenty minutes fighting command withdrew to Siniloan. Upon renewal operations 18th found that insurgents had escaped from Mavitac previous night, most of them no doubt going back into contiguous barrios to appear for time being or until called into field again as peaceful amigos.

"Thirty-three per cent is profoundly impressive loss and indicates stubbornness of fight, fearless leadership of officers and splendid response of men. Insurgent loss as far as known, ten killed, twenty wounded; among former Col. Fidel.

"MAC ARTHUR."

Nevada Bank Robbers Safe.

Winnemucca, Nev., Sept. 21.—The men who robbed the First National bank eluded both the posses from Golconda and from this place and reached the Silves ranch, thirty miles northeast, an hour ahead of their pursuers. Here the robbers made their second change of horses, having left four animals at the ranch several days ago. The robbers then struck out for Squaw valley and the mountains.

SMALL TOWNS NEED RELIEF.

Suffered More Proportionately Than Galveston.

MANY ARE IN DESTITUTION.

In Hitchcock Alone More Than 500 People Are Without Means—Of Three Hundred Houses This Place Boasted Only Ten Remain.

Dallas, Tex., Sept. 21.—Terrible as was the work of the storm in Galveston, the ruin and death it caused were not nearly so appalling proportionately as in some of the small towns along the gulf coast. The destitution and suffering in some of the isolated places also are greater, and at none of the points outside of Galveston is the relief work so well under way as in the Island City.

Reports of conditions made to Governor Sayres by S. Taliaferro, his representative, and by men he sent out to the interior towns indicate urgent need of strong relief measures. The reports are on half a dozen towns along the Santa Fe line. In fully fifty other places the story is quite as bad.

Fifty Families Need Help Here.

At Pearland fifty families are depending on the relief committee. Some supplies have been received, but assistance in other ways than provisions is needed. Families at Erin and Superior are to be supplied through Pearland.

In the town of Alvin and vicinity there are probably six houses on blocks out of a total of 1,000. The population of Alvin now to be fed is about 1,500; Manvel, 250; Liverpool and Amsterdam, 250; Chocolate and Austin bayous, Chigger neighborhood, Dickison bayou and surrounding country, about 2,500, making a total of 5,000 people under the supervision of the Alvin committee. The committee admits having a sufficient amount of clothing. They have received a cash subscription of about $2,000 and have spent $400. They have received two cars of flour from Dallas, one car of meal from Dallas and one car of mixed goods from Tyler.

Along the bay shore from Virginia Point to Liverpool, for a space of six or eight miles from the bay front, there are many thousands of dead cattle that should be immediately cremated or properly looked after.

In the town of Arcadia there are 300 destitute people, and those in the immediate vicinity will make the aggregate 500. Provisions are already supplied sufficient for immediate needs only.

Hitchcock Has 500 Destitute.

In the town of Hitchcock and immediate vicinity there are more than 500 people destitute. Of about 300 houses only ten are standing. A wave of salt water from four to ten feet in depth covered this section. Thirty-eight lives were lost and for the time being it is feared that the soil has been seriously damaged by the effect of the salt water. Supplies of provisions were sent yesterday.

There are probably 10,000 dead cattle within a space of a few miles south of and surrounding the town and every house should be supplied for at least ten days with disinfectants. Fever is now setting in and Dr. T. J. Scott of Houston went there yesterday.

Dux, Bohemia, Sept. 21.—An explosion occurred at the Frisch gluck mine yesterday. Thirty-five persons were killed and fifteen injured. Five persons are missing.

Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAINT.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and bursted. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.

TO SPREAD METHODISM

Plans to Gain 2,000,000 Converts by 1902 Completed.

BISHOP THOBURN THE LEADER.

Idea of the Movement Originated With Him—Congregations, Sunday Schools and Leagues to Be Asked to Furnish Volunteers to Bring New Members Into the Church.

At the Jane Street Methodist Episcopal church in New York the other evening the Rev. Dr. S. P. Cadman, pastor of the Metropolitan temple, in lower Seventh avenue, preached in place of the Rev. Frank J. Belcher, who is absent on vacation. Dr. Cadman is the member for the New York district of the executive committee of the forward movement of the Methodist church, which has for its object the enrollment of 2,000,000 new members by Jan. 1, 1902.

Dr. Cadman during his sermon spoke at length regarding the movement and asked for volunteers to work for the cause. Later Dr. Cadman said to a New York World reporter:

"We are now thoroughly organized for the work. We shall be greatly dis-

BISHOP J. M. THOBURN.

appointed if by 1901 the northern section of the Methodist church, which extends to the Pacific ocean, has not enrolled 500,000 of the 2,000,000 converts we expect to have by Jan. 1, 1902. The membership of this section is now 3,500,000.

"The time has arrived when the Methodist church must bestir itself. It is doing grand work, but must do better. We shall begin by enlisting all the pastors of all the churches, and they will exhort their congregations to furnish volunteers to bring in converts.

"We think most of the converts will be among younger people, and with this end in view the Sunday schools will be asked to exert all their influences to increase attendance. Then we shall work through the Epworth and other leagues. Next, every stranger who comes to a Methodist church will be asked to join it permanently. After these methods are exhausted we shall send volunteer workers among people who have never been or at least are not at present members of any church.

"All of the 15 districts of the northern church are fully organized now for this work. Each has its representatives, and our chairman is Bishop James M. Thoburn. The bishop is intensely enthusiastic over the movement. The idea of this movement originated with him, and he deserves all the credit for starting it and completing plans for carrying it out.

"There are a great many Methodists who seem to have lost their interest in their churches. In contrast to these members there are many thousands who have announced themselves as eager to support the movement. All they wanted was a leader, and this captain has appeared in Bishop Thoburn. There is strong need of co-operation in this work of getting converts.

"Strangers have attended a church and found their reception chilly and indifferent. We shall change all that. Finding that he is not welcomed as he feels he ought to be, this stranger is apt not to go to church again, and thus a possible convert is lost. Our cardinal principle will be to extend the hand of welcome to these strangers and to get as many of them as possible into our churches."

ON BRIBERY IN CITIES.

Substantial Men Are Blamed by Dr. Washington Gladden.

Milwaukee, Wis., Sept. 21.—Three hundred and fifty young women, pupils of the normal school, crowded into the private banquet hall of the Hotel Pfister and were told by the Rev. Dr. Washington Gladden of Columbus, O., that their fathers were guilty of bribery and other acts tending to make bad government. He said it was the substantial citizens who corrupt city government. It was the session of the convention of the National Municipal league. The young women were told how to make good government, how to vote and how to work against the scheming politician. When the paper was finished they arose to depart, and a number escaped before the chaperons could explain that the session was not over.

If fortune disregard thy claim
Don't hang thy head in fear and shame.
But marry the girl you love best
Rocky mountain Tea will do the rest.

ROBERTS MAKES REPORT.

Claims That the Boer Soldiers Are Done Fighting.

London, Sept. 21.—Lord Roberts cables from Nelspruit, on the Pretoria-Delagoa Bay railroad, not far from Komatipoort, the frontier station, under date of Wednesday, Sept. 19, as follows:

"Of the 3,000 Boers who retreated from Komatipoort before the British advance from Machadodorp 700 have entered Portuguese territory, others have deserted in various directions, and the remainder are reported to have crossed the Komati river, and to be occupying spurs of the Lobombo mountain, south of the railway.

"A general tumult seems to have occurred when they recognized the hopelessness of their cause.

"Their long toms and field guns have been destroyed, and nothing is left of the Boer army but a few marauding bands.

"Kelly-Kenny is dealing with one of these which occupies a position at Doornberg."

Spitzkop, Sept. 21.—Gen. Viljoen, who succeeded Louis Botha in the supreme command of the Transvaal forces, is reported to be moving northward in the direction of Hectorspruit, with 3,000 men and thirty guns. He is known as "the firebrand," and will endeavor to protract the war.

London, Sept. 21.—Lord Roberts telegraphed from Nelspruit, Vaal River colony, under date of Tuesday, Sept. 18, that the town was occupied on the day previous without opposition. He adds that he is in communication with Gen. Buller and is able to send him supplies. Lord Roberts further says that Gen. Buller reports that the bulk of his opponents now are mercenaries and Cape Colony rebels.

Howard Mustache Important.

Frankfort, Ky., Sept. 21.—Did "Jim" Howard have a mustache on Jan. 30? On that question in a great measure depends the liberty, perhaps the life, of the defendant in the Goebel case. The witness for the defense, including the defendant himself, all state that on Jan. 29 and days before his face was clean shaven. Bowman Gaines, Ben Rake and James F. Daly, who have identified Howard as the man they saw on the 30th of January, swear that he had a mustache. The defense is resting its case on the alibi claimed for Howard and is not paying any attention to the claim of the prosecution that the shot came from the secretary of state's office, and other collateral matters which figured largely in the trial of Caleb Powers.

China Loot May Be Given Up.

San Francisco, Sept. 21.—The revenue officers have brought down from the Mare Island navy yard on a government tug 154 cases of rare Oriental goods, which had been smuggled into this country on the hospital ship Solace. The articles seized would net a small fortune. The duty is nearly 60 per cent of the value of the goods, and on this account most of the stuff, which includes doot from Tientsin, will probably be abandoned to the government. The cases of silks and curios are addressed to persons all over the United States.

Pedestrianism Perfected. . .

It is most essential n the purchase of a pair of high grade Shoes, to know the "reputation" and "reliability" of the makers. When the name of

Stacy Adams & Co.

Is upon the strap of a Shoe it means that 25 years of patience and energy have been expended in the production of such footwear—that no better "pedigree" can be desired.

We have just received our fall styles. . .

And would be pleased to show them to you. After you once wear these Shoes you will wear no others. There are more of these Shoes worn in Janesville than all other so-called high grade Shoes put together. If you are not wearing these Shoes try a pair now.
